Conference Focus: SCHOOL IMPROVEMENT & ACCREDITATION

A call for Papers, Workshops, & Training will be sent out soon.

Join us in a two-day conference that will address the why, what, and how of accreditation and focus on issues relevant to school improvement in Islamic schools, including:

- Federal and State laws and programs affecting nonpublic schools and how your school can benefit from those funding opportunities,
- Legal issues, including documentation and record keeping, to protect your school and increase your administrative effectiveness,
- Lessons learned from other private schools (Catholic, Jewish, and Lutheran) as they struggled to gain accreditation and attain excellence,
- Networking with other professionals - mentoring, resources, and much more.

Do not miss this unique opportunity to meet leaders of other Islamic schools and to sharpen your administrative and leadership skills, update your knowledge, and share your best practices. Put this on your calendars and in your school's budget for the Fall.
